

THE MAGPIE

OPEN-SOURCE & EASY TO BUILD

Version 1.0

SAFETY DISCLAIMER

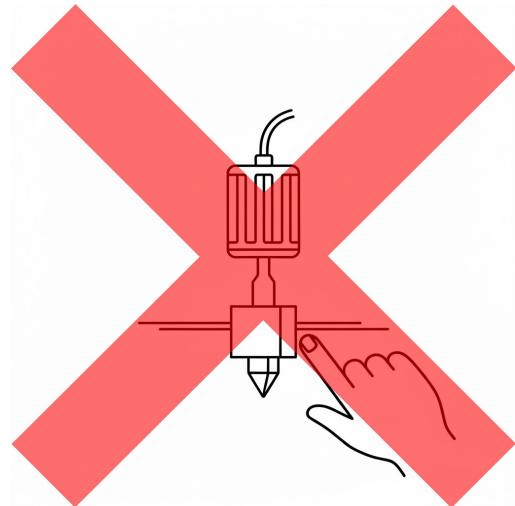

WHILE FUN AND REWARDING, 3D PRINTING IS NOT WITHOUT ITS HAZARDS. PRINTERS HAVE HEATING ELEMENTS THAT CAN BURN YOU IF YOU'RE NOT CAREFUL. DO NOT TOUCH THE HOTEND OR THE HEATED BED WHILE THE MACHINE IS IN OPERATION. IF YOU'RE UNSURE WHETHER THE HEATED BED OR HOTEND IS ON, DO NOT TOUCH THEM TO FIND OUT.

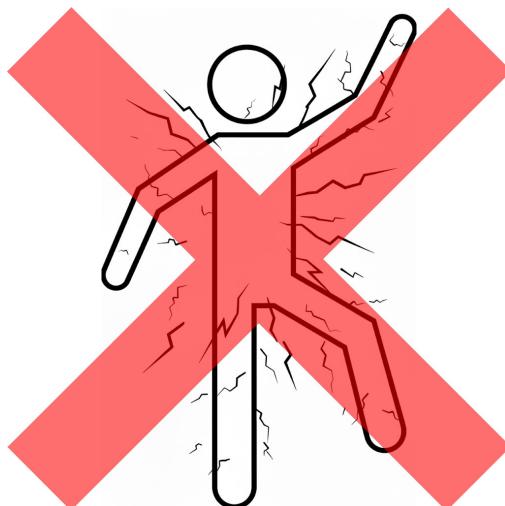

MANY POLYMERS RELEASE IRRITANTS INTO THE AIR WHEN BEING PRINTED, AND SOME POLYMERS PRODUCE FUMES THAT ARE KNOWN CACINOGENS. GENERALLY, PLA AND PETG ARE CONSIDERED TO BE EITHER NON-HARMFUL OR AT THE LEAST RELATIVELY INNOCUOUS TO BREATHE.

THIS PAGE DOES NOT CONSTITUTE HEALTH ADVICE, NOR IS IT INTENDED TO BE. IF YOU BUILD A MAGPIE, THE RESPONSIBILITY TO YOUR HEALTH AND TO YOUR OWN SAFETY IS YOURS ALONE. PLEASE TAKE CARE OF YOURSELF BECAUSE THERE'S ONLY ONE YOU, AND YOU'RE AWESOME.

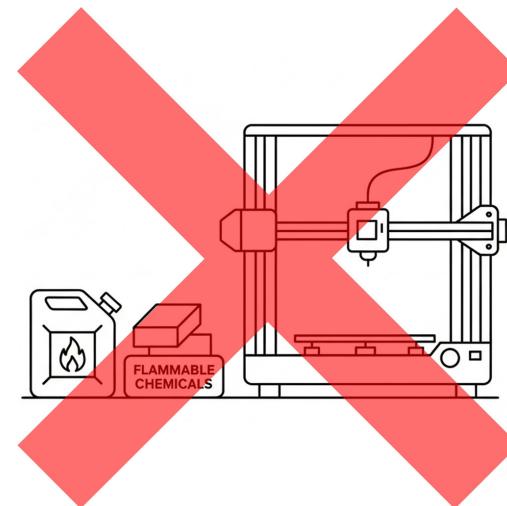

SAFETY TIPS

DON'T TOUCH THE HOTEND

DON'T PLAY WITH MAINS POWER
UNLESS YOU KNOW WHAT YOU'RE
DOING

DON'T PRINT NEAR THINGS
THAT WANT TO BE ON FIRE

PRINTED PARTS SETTINGS

MATERIAL CONSIDERATIONS

ACCEPTABLE MATERIALS ARE: ASA, ABS, PETG, PCTG, PLA

DO NOT ENCLOSE THE PRINTER IF PRINTED FROM PLA

PRINT SETTINGS:

“VORON STANDARD”

LAYER HEIGHT: 0.2MM

EXTRUSION WIDTH: 0.4MM, FORCED

INFILL PERCENTAGE: 40%

INFILL TYPE: GRID, GYROID, HONEYCOMB, TRIANGLE, OR
CUBIC

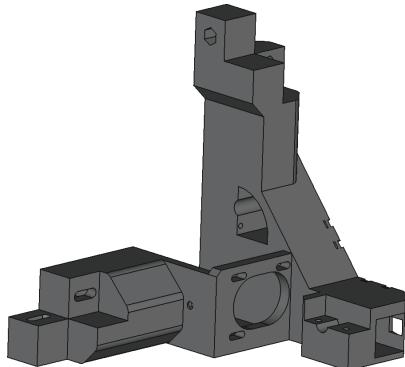

WALL COUNT: 4

SOLID TOP/BOTTOM LAYERS: 5

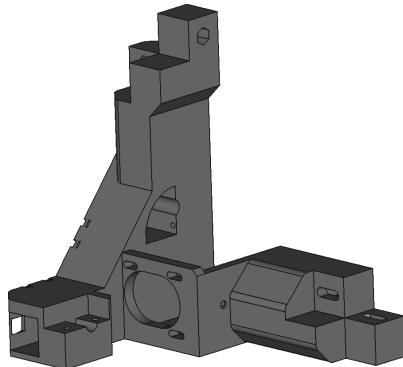

SUPPORTS: NONE
